About This Game

Defense Grid: The Awakening is a unique spin on tower defense gameplay that will appeal to players of all skill levels. A horde of enemies is invading, and it's up to the player to stop them by strategically building fortification towers around their base.

Beautiful environments, spectacular effects, and a dynamic, engaging soundtrack bring the world to life. The controls are intuitive and the gameplay is deep — the special attacks and properties of each tower work together to provide many ways to succeed.

- **High Replayability** There are approximately 8 hours of gameplay in the main storyline, and many hours of play in challenge modes that give players unique starting conditions and objectives. Each game level is very replayable, and can be solved in many different ways, with increasing rewards for improved efficiency.
- **Wide Variety of Enemies** Over the course of the game, players battle 15 different enemy types that become increasingly stronger, and employ a variety of strategies in an attempt to bypass the player's defenses. As the levels progress, the enemies become tougher and more difficult to defeat.
- **20 Unique Levels** Defense Grid: The Awakening has 20 unique environments, each with a different placement of roads, tower build locations, and open areas to plan a strategy around.
- **Numerous Tower Options and Upgrades** There are 10 different tower types with 3 levels of capability each. Each tower has unique trade offs that affect ideal placement, such as line-of-sight attack or ballistic trajectory fire. Some towers improve other nearby towers, and some are ideal at specific locations, such as a rear guard tower that unleashes a

devastating attack.

- **Steam Achievements** Successfully completing each level provides a bronze achievement award. Additional goals provide silver and gold awards for a particular level. A novice player may be able to survive the onslaught, but only an experienced player will be able to get all of the gold achievements.

Defense Grid: Resurgence Map Pack

New Maps, New Strategies, New Experiences, and New Achievements From the Creators of Defense Grid

Defense Grid: Resurgence is the first premium expansion for Defense Grid: The Awakening and is made up of 8 new highly polished and balanced maps from the original creators. Each week in June over four consecutive weeks a new pair of maps will be released providing new environments and strategic experiences and requiring new ways of thinking to beat back the aliens and protect your cores. Each map pack contains 2 maps each with a campaign mode and 4 additional modes associated with the design of that level. New Steam achievements and high-score leaderboards are associated with each map pack.

Defense Grid: Resurgence Map Pack 1

Service Interruption and Height of Confusion

- Two new challenging Defense Grid environments are the first two released in the Resurgence DLC. An obstructed road to the core housing gives the aliens a significant advantage in Service Interruption. Choose your towers wisely! Height of Confusion has a wide open surface, making for endless possibilities! Build anywhere you want in your defense of the power cores!

Defense Grid: Resurgence Map Pack 2

Risk Exposure and Roundabout

- Don't miss out on the next two maps in the Resurgence series. Risk Exposure will allow you to discover your ability to defend two independent power core housings! Limited build spaces will test your skills as you divide your resources to discover optimal tower placement. On Roundabout, you will be faced with numerous possibilities for pathing and a variety of elevation changes. This one will have you going in circles to contain the alien menace!

Defense Grid: Resurgence Map Pack 3

Urban Planning and Tactical Diversion

- It's the third of four great map packs in the Resurgence series. Urban Planning is a dense environment with restrictive build spaces, forcing difficult decisions against continuously attacking hordes. In Tactical Diversion, survey the small, snow covered platform and consider numerous possibilities. But be prepared for the aerial assault!

Defense Grid: Resurgence Map Pack 4

Kill Zone and Overflow

- The final installment of the Resurgence series includes two more environments sure to challenge your tactical planning. In Kill Zone, will you construct your defenses near the spiral road in, the spiral road out, or the open platform in the middle? Perhaps all three! But you'll need to be on your toes to deter the invaders. Overflow has numerous connected platforms that will provide countless options to turn back the enemies. Will you be able to keep the cores safe?

If I were in an alternate universe and Dungeons and Dragons: Daggerdale were actually a meal I ordered out of Jack in the Box circa 1992, this would be my review:

It tastes like it has bugs in it with a noticeable amount of bugs, oh and a glaze of buggery bugness with a side of this game is the ♥♥♥♥♥iest game I have ever played.. It's interesting for the concept alone but the clunkiness of implementation is sometimes frustrating.. There is only one word I can use to sum up Broforce's music:

Power.

For \$5, Broforce's soundtrack is one of the biggest steals I've ever gotten ahold of. While plenty of the 55 tracks are short loops taken directly from the game, few titles have ever boasted the kind of awe-inspiring, bicep-rippling firestorm that Free Lives and Deon van Heerden have blessed us with. The Broforce Theme alone was worth every penny.. I loved this game. It's quaint and charming with very dream-like imagery. Do the puzzles always make sense? No. Did I get stuck a bunch of times? Yes. Like a lot? Yes. But I did thoroughly enjoy playing it.. Basic side scrolling Zombie shooter. Use Keyboard A & D to move left or right, use your mouse to aim @ Zombies heads and click the mouse to fire. Use ENTER to interact, and talk to the NPCs for missions. Use the elevator to select a level. 4/10. Very fun and original idea. The twin stick mechanic with two players is hilariously difficult to learn, but there's some serious fun in doing so. Especially with someone else. Definitely recommend it if you're looking for a fun and unique co-op experience.. Very similar to the Android game Monument Valley. Relaxing, fun, and a great value.. As an old mahjong player i have a lot of words to say...

First The Good Ones :)

- Game art is very good...
- It has a story which most of mahjong games don't have...
- There are different power-ups that makes the game better than a casual mahjong game...
- Lots of levels and puzzles
- I bought the game with %90 off...cheap to have fun for a long time

And The Bad Ones :(

- Game has bugs...a lot !!!
- The music is very good at the beginning but after some levels you will see that "every" game it has the same music which never changes...after few levels i had to turn it off...really so so so boring when you play a lot...
- Some power ups don't have any meaning to use (like find matched ones etc.)

anyway...if dev's fix bugs and can make a change at the ost...it will be a good game for everyone...i will recommend this game anyway...buy...try...and if you don't like take your money back...steam gives you this chance already ;)

good game :). funny idea, less contral then dwarf fortress.

to make this game playable (less of a struggle) in the current version would be by disabling the female/male requirement till you have other systems in place of dying for all the variables, also nice would be a check wether or not you want snow...

So disappointed, save your coins, what the previous comment states is 100% true.. As a man who is still yet to read the short story in which the game is based, I thoroughly enjoyed this experience and look forward to what the developer will do next.

I also had the pleasure of interviewing the developer for a project I was conducting at the time and he was very helpful indeed.

I fully recommend this game to anyone who has an interest in Lovecraft's stories or those who will enjoy a strange tale of the macabre.

. My favorite HUNTER of all time :D

. best aim trainer. This is a truly exceptional twin-stick arena shooter.. I bought this at launch, tried it for six minutes, and then immediately uninstalled it. I've played some unpolished games but this is exceptionally wretched.. Motocross Madness 2 is back! This is the best DLC I have ever found in a game! It's crazy, I love it! It's an open world map absolutely to explore! Several tracks on the same open, wide and free to roam map! Can't stop remembering the old days of Motocross Madnes! Buy it!. I need friends to play with ;_;

. Great game ! Worth every penny.
