About This Game

The Gnomelands of Ventocia are in turmoil!

You are the last free Gnome, on a quest to rescue the enslaved Gnomekin from the evil Fairy King and the spells of his Fairy Daughters. Jump, slash, and twirl your way through mystical worlds riddled with Mushroom Monsters, Kittybats, Gorps, and more. Harness untold magic and recruit new allies to unleash magical mayhem in the final stand against the tyranny of the evil Fairies.

Title: Gnomes Vs. Fairies: Greckel's Quest
Genre: Action, Adventure, Casual, Indie, RPG
Developer:
Prismic Studios LLC
Publisher:
Prismic Studios LLC
Release Date: 1 Jul, 2016

a09c17d780

English,Japanese

For those who enjoy games like Touhou project and are familiar with bullet hells, I would recommend this game. It's overall a fun game, with challenging difficulty. Characters are bit bland, the backgrounds should have some touch ups, and the English translation isn't perfect. However, the music is wonderful, and I love how barrages go to the beat of the music; especially in the 2nd stage where the music speeds up and down which is very fun to play. Another interesting thing is when it would change from a vertical shooter to a top down shooter.

Overall, I think the game needs some polishing along with some more characters to play as. I think the game could probably be a bit cheaper since it's a rather short game, but \$10 isn't bad.

Hope to see more games like this in the future!. I think could compare this to Super Meat in terms of it's mechanics and difficulty, although I would prefer to compare it to Jello Escape on CoolMathGames (I love to know if someone knows what I'm talking about). The game is difficult late game, but it's fair difficulty (except for one part that is complete garbage, in my opinion). The story is very nonexistent, but it's cheeky and the optional dialog is a nice touch. The graphics aren't much, but it isn't unappealing to look at. So overall good game, don't know if all ever play it again (mainly because of that BS part), but maybe I will in the future.. A nice game. Good graphics and gameplay. Challenging and great for casual fun.. I wish I mustn't give this a negative review, but it is how it is, a (pretty much crappy) dress up, where most of the players thought they could use the character created in the main game. Also it is very hard to find. So I'm sorry but I have to give this review.. Cosmic Leap

+ Play through 100 small levels that will test your reaction skills

Time your jumps from planet to planet, avoid the obstacles thrown in your path and blast off to safety with your rocketship!

If you enjoy some diversity on your screen, then, I'd certainly say purchase this pack. The Norse models are really cool, and, compliment the Finn, Rus, and Holy Order appearance packs quite well.. Not worth it. good. The story of the game occurred in two hundred BC, telling the war between the Han Dynasty of China and the Huns on the Mongolia prairie. Because of this war and the great dynasty, China's Chinese nation gained a new name, the Han nationality.

Believe me, I see the production group recovering a lot of historical facts. In the game, all the buildings, clothes, utensils and streets of the city you see are real history! It's amazing.

As a matter of fact, I saw the social features of various countries and nationalities living in Central Asia and East Asia in two hundred BC, and I learned the way and form of ancient Chinese war.. I don't know why, but this game is amazingly attractive. It's worth all its money even without any discounts.

Не знаю, почему, но оторваться от игры совершенно невозможно. СтОит заплаченных за нее денег даже при покупке без скидок.. Paradox DLC is responsible for the bloody crusades.. I've spent several hours playing Corgi Warlock, and overall, I have to say that I'm impressed with the game. It's a side-scrolling action platformer with monsters to kill, loot to collect, and upgrades to attain.

The graphics and soundtrack are good, and the controller mechanics are both consistent and responsive. I enjoy gaming with a controller, and nothing disappoints me more than a game that advertises full controller support but doesn't deliver. Corgi Warlock delivers.

There are 10 levels to the game, and so far, I've made it to level 7. What I thought at first was a casual gaming experience is actually really quite challenging. The layout of the levels isn't where the challenge comes in, it's the progression of monsters with varying degrees of health coming across the screen at a steadily increasing pace.

The addition of obstacles such as platforms over water, jumping sharks, and fireballs flying across the screen add unpredictability and the need for quick response time to the mix. As the levels progress, response time gets shorter and shorter while the difficulty increases, meaning that even the most hardcore gamers will find a challenge during the latter portions of the game.

I did experience a few oddities that I want to point out. The first is that killing a coin-dropping monster with a tower in the background results in coins getting stuck in mid-air on the screen. This can be re-created most easily in level 6 or any level where there are step-like platforms leading up to a higher level. The bottom level ends at a gray tower, meaning that you can't advance any further to the right. However, the monsters are coming from the right side of the screen, as well as the left, so if you stand right at the end of the bottom level and shoot, or jump up on a right-side platform and shoot, coins will regularly drop and fly up into the tower, getting stuck on the screen where your character cannot go.

This brings me to the second oddity, which is that the Steam Overlay doesn't seem to work with this game, and neither does the F12 button for taking screenshots. I wanted to take a screenshot of these trapped coins to publish, but I couldn't figure out how to do this. Neither F12 or the Print Screen button worked for me, and I was unable to use Alt-Tab and snip tool to clip a JPG. Anyone determined to get a screenshot would likely have to clip a frame out of a video streaming session.

Other than those couple of things, which really didn't reduce my enjoyment of the game, overall, I didn't experience anything that would cause me not to recommend the game. It's appropriate for young and casual gamers as well as experienced gamers looking for a challenge.
